MEMORANDUM FOR THE RECORD

SUBJECT: Biographic Intelligence

1. After the Senior Staff meeting this morning I visited Paul Borel and mentioned our joint draft memorandum for the DD/I which had just been received yesterday as signed off on 20 February by Huntington Sheldon for Mr. Cline, and therefore I was circulating it for discussion by the NIS Committee. I would, however, need some statement from BR on what and how they intended to wind up their commitment to OBI. Borel called [REDACTED] in who said he would turn 25X1A9a in the two KP's on Peru and Egypt that were nearly completed, but did not intend to produce any more. [REDACTED] assured me that we 25X1A9a would get these within a month. This would allow printing time before the end of the fiscal year.

2. I asked how we would explain to the NIS Committee the apparent cancelation of some 12 items now shown on the FY 63 schedule. After some discussion we developed the idea that these items would be considered as transferred into the following fiscal year to be produced under the BR program. [REDACTED] promised to send me a statement 25X1A9a describing their new series of publications. I told him we had some responsibility to the present NIS subscribers holding KP's growing obsolete. He said they would devise a supersession notice and would advise us further.

25X1A9a
[REDACTED]
